About

I am a results-oriented professional with a deep commitment to excellence. With a background in development and management, I bring a robust foundation of technical and non-technical skills, coupled with a fervor for innovative projects and development. My prowess shines in dynamic environments, where I demonstrate unwavering dedication to continuous learning and a relentless drive to leave a lasting impact in my chosen field.

INTERNSHIP EXPERIENCE

ZappInvest | Front-End Development Intern

4

- As a Project Intern with a focus on front-end engineering, I successfully undertook the responsibility of Front-End codebase.
- Throughout the internship, I applied my solid understanding of React and its ecosystem to analyze the existing codebase and identify areas where Redux could provide significant benefits
- Tools and Technologies used: ReactJS, Redux, Javascript, HTML, CSS, REST APIs, Responsive Web Design

Projects

Invoice Generator | React App

4

- An Invoice creator project built with React. Add itemized items, configure quantity, prices, tax rates and discounts. Download Invoice as PDFs to your device. Uses jspdf-react to capture the data from the modal and convert it from canvas to pdf.

SnakeGame | Html, CSS, JS, React

4

- LNMHacks stands out as one of the most prominent Web3 hackathons hosted in Jaipur from January 27 to January 29, 2023.
- Efficiently managed on-ground events and handled backstage operations with a keen eye for detail and professionalism.

Quizmify | NextJS 13, TailwindCSS, OpenAI, Next Auth

4

- It is a full stack AI quiz platform with NextJS 13, TailwindCSS, OpenAI, Next Auth.
